The Department of Nutritional Sciences
Fall 2017 Seminar Series

Guest Speaker:

Zoltan Arany MD PhD
Associate Professor in Medicine
Cardiovascular Institute and Institute
Diabetes Obesity and Metabolism
Perelman School of Medicine, University of Pennsylvania

“Branched Chain Amino Acids in Insulin Resistance”

Host: Tracy Anthony, PhD
The Department of Nutritional Sciences, Rutgers University

Wednesday, September 27, 2017, 2:30-3:30 PM
New Jersey Institute for Food, Nutrition, and Health,
Conference Room 205, 61 Dudley Road

Zoltan (Zolt) Arany, MD, PhD is an Associate Professor of Medicine at the Perelman School of Medicine at the University of Pennsylvania. He trained in Internal Medicine at Massachusetts General Hospital and cardiology at the Brigham and Women’s Hospital in Boston. He received his BA, PhD, and MD from Harvard University.

Dr. Arany’s laboratory focuses on the mechanisms that underlie metabolic pathophysiology in the cardiovascular system. He focuses on linking investigations of cardiac and vascular physiology in mouse models to clinical data and observations. Recent focus in Dr. Arany’s laboratory has included the role of the vasculature in the development of diabetes, and of maternal cardiac disease during pregnancy. Dr. Arany is also an active clinical cardiologist, teacher, and mentor.

Dr. Arany is a recipient of several awards including the American Heart Association Established Investigator Award in 2012, the Hal Dvorak Young Investigator Award in Translational Research, and the prestigious Inaugural Yale Calabresi Prize in 2014. He was recently elected to the American Society of Clinical Investigators. Dr. Arany has published more than 90 research papers in prominent journals such as New England Journal of Medicine, Nature, Cell, PNAS, Cell Metabolism, and Genes & Development.
