

RUTGERS

School of Environmental
and Biological Sciences

The Department of Nutritional Sciences presents: **The 2018 Hans Fisher Lecture**

Guest Speaker:

Eric J. Nestler, MD, PhD
Nash Family Professor of Neuroscience
Icahn School of Medicine
Mount Sinai
Dean for Academic and Scientific Affairs
Director, Friedman Brain Institute

Transcriptional and Epigenetic Mechanisms of Depression

Dr. Nestler will present the strategy of using open-ended transcriptomic mapping to gain new insight into the biological basis of depression. The talk will focus on two aspects of this work: sex differences in the molecular mechanisms underlying depression, and epigenetic mechanisms underlying the ability of stress early in life to program a life-long susceptibility to depression.

When:

Wednesday, April 18, 2018
Refreshments: 11:00 AM
Introductions and Lecture: 11:15 AM

Where:

The New Jersey Institute for Food, Nutrition and Health, Room 101,
61 Dudley Road, New Brunswick, NJ
