The Department of Nutritional Sciences presents:
The Beaudette-Thompson Lecture

The Novel Role of Vitamin A in Preventing Pancreatic Inflammation and Maintaining Pancreatic Health

Guest Speaker:
Sohail Z. Husain, M.D.
Chambers-Okamura Endowed Professor and Chief of the Division of Pediatric Gastroenterology, Hepatology, and Nutrition at Stanford

When:
Wednesday, November 9, 2022
Refreshments: 1:45 PM
Introductions and Lecture: 2:00 PM

Where:
The New Jersey Institute for Food Nutrition and Health, (IFNH)
Room 101, 61 Dudley Road, New Brunswick, NJ

Zoom Option:  https://go.rutgers.edu/Husain-Lecture

- Recognize the burden of pancreatitis as a serious drug adverse event
- Probe insights specifically into the common problem of asparaginase-associated pancreatitis (AAP)
- Evaluate the novel role of the micronutrient vitamin A in protecting against AAP and maintaining pancreatic health

This lecture is made possible by the Department of Nutritional Sciences Willard C. Thompson and Fred R. Beaudette Lecture endowment and is held in coordination with the Rutgers Center for Agricultural Food Ecosystems (RU-CAFE).
