

The Department of Nutritional Sciences Fall 2024 Seminar Series

"Investigating Kratom Alkaloids' Cardiovascular Effects and Pharmacokinetics in Obesity"

Spencer Fields

Ph.D. Student

Host: Nicholas Bello, Ph.D.
Professor of Animal Sciences, Rutgers

Wednesday, October 23, 2024 @ 2:15 PM
FSNS Building, 65 Dudley Road, New Brunswick, Room 120

Zoom option: <https://go.rutgers.edu/Student-SeminarFA24>

Kratom, an emerging botanical product from Thailand, has seen rapid growth in the United States during the last decade. Containing over 40 bioactive alkaloids, we investigate potential therapeutic uses and adverse cardiopulmonary health outcomes in the context of its interactions with an obese population.
