

The Department of Nutritional Sciences Fall 2024 Seminar Series

"Taste and Oral Metabolic Signaling of Carbohydrates"

Emily Hanselman

Ph.D. Student

Host: Paul Breslin, Ph.D.
Professor of Nutritional Sciences, Rutgers

Wednesday, October 23, 2024 @ 2:15 PM
FSNS Building, 65 Dudley Road, New Brunswick, Room 120

Zoom option: <https://go.rutgers.edu/Student-SeminarFA24>

Foods and beverages containing glucose are capable of both eliciting sweet taste and signaling metabolizable glucose is present in the mouth. Our research aims to understand how these two oral signals differentially contribute to taste transduction, carbohydrate perception, and ingestive behaviors in rodents and humans.
