

The Department of Nutritional Sciences Fall 2026 Seminar Series

" Protein-Driven: How a Nutrient Shaped My Career Path "

Jamie I. Baum, Ph.D.

Director for the Center for Human Nutrition
Associate Professor of Nutrition
University of Arkansas

Host:

Tracy Anthony, Ph.D.
Professor of Nutritional Sciences
Rutgers, The State University of New Jersey

Wednesday, November 4, 2026 @ 2:15 PM
FSNS Building, 65 Dudley Road, New Brunswick, Room 120

Zoom option: <https://go.rutgers.edu/baum-seminar>

Protein has shaped my career—from industry to academia, and from the lab bench to the community. We use a molecule-to-man approach to understand the relationship between skeletal muscle and ingestive behavior, and how Cooperative Extension helps us translate these discoveries into interventions and educational programs to improve metabolic health throughout the lifespan.
